

Name _____ Room _____ Date _____

Science Fair Planning Guide 3

Due Monday November 13, 2017

Note- if you prefer to type or use your own paper for any of these questions, you may. Just attach it. If you need more space, use extra paper and attach it.

1. Write your testable question again. _____

2. Do your experiment!! Yay, finally!! See step 5 in the packet.

3. Collect data on your data table. Do repeated trials if necessary. See step 5 in the packet.

4. If you collected quantitative data, make a graph. You should graph the average of your trials. See step 5 in the packet.

Attach any data tables, charts, or graphs to this planning guide.

5. Summarize your findings. **Refer to step 6 in your science fair packet.** Draft your conclusion, reflection, and application below. Use extra paper if necessary.

Conclusion: _____

Reflection: _____

Application: _____

Approved initials- Parent _____ Teacher _____

Get ready to finalize all this information to create your research paper and display board.
Congrats! You're almost there!
